**IMAGINATIONS
UNLIMITED**

The image is a vibrant collage of hand-drawn icons in various shades of blue, green, and orange. The icons represent a wide range of business and technology concepts, including:

- Business & Management:** Planning, Strategy, Teamwork, Result Oriented, Scalable, Innovation, Dealer Management, Logic, Team Work, Accountability, Analysis, Videos, Source Code, Dashboard, Social, and CRM.
- Technology & Design:** Apps, Motion Graphics, Technology, Designing, Digital, Web & Mobile Application, Content Writing, and ERP.
- Marketing & Sales:** Brand, MIS, Designing, Digital, and Dealer Management.
- General Concepts:** Creativity, Innovation, Scalable, Innovation, and Dealer Management.

The central text "IMAGINATIONS UNLIMITED" is written in a bold, black, sans-serif font, with "IMAGINATIONS" on the top line and "UNLIMITED" on the bottom line. The background is a light gray, and the overall composition is a dense, interconnected web of icons and lines.

THE COMPANY

www.intelliworkz.tech

Intelliworkz Business Solutions Private Limited is a versatile Branding, Creative, Digital, and Tech Company. We excel in a wide range of disciplines, covering Brand Identity, Creative Design, IT/ITES, E-Commerce Solutions, Web & Mobile App Development, Advertising & Digital Marketing, as well as comprehensive products tailored for multiple industries such as ERP, CRM & POS services.

In today's fast growing and dynamic business world, back office operations, support services and marketing solutions have become critical components for running the business successfully.

At Intelliworkz we offer gamut of services which helps our customer to cut down their operational cost, outsource support services at affordable rates and hence they can focus on their core business activities. With strong collaboration of skilled people in our team we deliver quality services to our clients in prescribed time limit. We closely work with our clients to study and evaluate their business model so that we can offer them customised solutions.

TECHNOLOGY

Make your business more
Agile, Efficient and Profitable.

AGILE

www.intelliworkz.tech

At Intelliworkz, we adhere to the Agile development methodology, a highly adaptable approach to software development. This methodology emphasizes collaboration, adaptability, and continuous customer feedback. By decomposing projects into smaller, manageable tasks, we facilitate the ongoing delivery of functional software products.

- Improved adaptability to evolving requirements and priorities.
- Heightened transparency across the development lifecycle.
- Accelerated time-to-market through continuous delivery of functional software.
- Strengthened alignment of project outcomes with strategic business objectives.
- Increased agility in resource allocation and task prioritization.

OUR SERVICES

www.intelliworkz.tech

ENTERPRISE SOFTWARE

Our comprehensive ERP/CRM services provide businesses with an integrated solution that streamlines operations and enhances customer relationships. By seamlessly integrating ERP and CRM functions, DataNote ERP empowers businesses to achieve efficient growth and operational excellence.

AGILE

Our Agile methodology is a project management approach that prioritizes flexibility, collaboration, and iterative development. We focus on delivering functional software or products in short, iterative cycles, enabling rapid feedback and adaptability to evolving requirements.

MOBILE APPS

Our team of experienced developers specializes in crafting tailored mobile applications for both Android and iOS platforms. Whether you require applications for a single platform or cross-platform compatibility, we assist clients in expanding your reach and driving business growth in the mobile landscape.

PRODUCT PROTOTYPING

We assist clients in streamlining their product development process. Our team of experienced professionals is dedicated to helping clients visualize and test their innovative ideas before committing to production. With our prototyping services, client can confidently bring client's groundbreaking concepts to life.

IOT

Our comprehensive ERP/CRM services provide businesses with an integrated solution that streamlines operations and enhances customer relationships. By seamlessly integrating ERP and CRM functions, DataNote ERP empowers businesses to achieve efficient growth and operational excellence.

API'S

Enhance your business operations with our API development services. We specialize in crafting customized APIs that seamlessly integrate with your existing applications, facilitating efficient information exchange and streamlined workflows.

STAFF AUGMENTATION

We offer businesses temporary access to specialized talent and resources, enabling them to effectively address staffing gaps, adhere to project timelines, and accomplish their project implementation and optimization objectives with enhanced efficiency.

IT CONSULTANCY

Tech consultancy includes many services providing companies solutions in implementing new transformative softwares, designing, change-ready infrastructures, managing IT resources with maximum return. We cover all IT ecosystem and span from strategic advisory services to implementation.

UI/UX

We blend creativity and functionality to craft exceptional digital experiences. Our UI/UX design team focuses on two crucial elements: User Interface (UI) and User Experience (UX). With UI, we meticulously design the look and feel of your platform, ensuring it aligns with your brand identity and captivates your audience. On the other hand, our UX experts dive deep into user behavior, creating intuitive layouts and seamless interactions to enhance user satisfaction. From websites to mobile apps, we're here to transform your vision into a delightful reality that users love to engage with.

- 
- Perfectly aligning with your brand's identity for a memorable experience.

MIXED REALITY

Mixed reality is an exciting technology that merges the digital and physical worlds, creating immersive experiences that go beyond traditional marketing. Imagine your customers interacting with holograms of your products, or exploring virtual environments in their own space. With mixed reality, we can bring your brand to life in ways that were previously unimaginable, leaving a lasting impression on your audience.

- MR seamlessly blends digital content with the real world, creating captivating brand experiences that break boundaries.
- With MR, customers can engage with lifelike holograms of your products, fostering deeper connections and boosting brand engagement.

EXPERIENTIAL

VIRTUAL REALITY

www.intelliworkz.tech

We're excited to introduce you to the incredible world of VR marketing. VR isn't just a buzzword; it's a game-changer that allows brands to create immersive experiences that captivate audiences like never before. With VR, you can transport your customers to new places, let them explore your products in 3D, and engage with your brand in ways that were previously unimaginable. It's more than just a marketing tool. It's a whole new way to connect with your audience and leave a lasting impression.

- VR creates immersive environments, boosting engagement and brand recall.
- Let users interact with products in virtual space, increasing understanding and boosting sales.

AUGMENTED REALITY

AR blends the digital and physical worlds, letting us create engaging experiences that captivate your audience. Picture customers seeing your products in real-time or interacting with your brand through their devices. It's about creating memorable experiences that stick. With AR, we turn ordinary campaigns into immersive adventures that grab attention and drive engagement.

- **Immersive Brand Experiences:** AR lets us create engaging experiences where customers interact with your brand in their surroundings, boosting engagement and brand loyalty.
- **Enhanced Product Visualization:** With AR, customers can see your products in real-world settings, helping them make informed decisions and increasing their trust in your brand.

PRODUCT DESIGN & 3D MODELING

Turning ideas into tangible reality with expert product design and 3D modeling.

PRODUCT DESIGN & 3D MODELING

www.intelliworkz.tech

We're here to turn your product ideas into reality with our creative expertise and cutting-edge technology. Our talented team specializes in crafting visually stunning designs that not only catch the eye but also effectively communicate your brand's message. Through meticulous attention to detail, we ensure that every aspect of your product is carefully considered and optimized for success in the market. With our comprehensive 3D modeling services, you can visualize your product from every angle, making informed decisions and ensuring that the final product meets your expectations.

- Our team specializes in crafting visually stunning designs that effectively communicate your brand's message and catch the eye of your audience.
- With our comprehensive 3D modeling services, you can visualize your product from every angle, ensuring it meets your expectations before production begins.

Product design and 3D modeling are essential for brands to create visually appealing and functional products that stand out in today's competitive market. They allow brands to bring their ideas to life, ensuring customer satisfaction and market success.

VIDEO & ANIMATION

Let's bring some life to
your design!

VIDEO & ANIMATION

www.intelliworkz.tech

Every business has a unique proposition and story to tell to their consumers. A good video produced with unique content, creativity and concept will leverage the brand presence and connect with your clients more effectively.

With 9+ years of experience and skilled staff on board, Intelliworkz will be able to provide you the best in class video experience for your products, services or brand promotion.

- 2D Explainer Video
- Motion Graphics Video
- Whiteboard Animation
- Typography Video
- Mobile App Demo Video
- Software Demo Video
- Product Demo Video
- Presentation Video
- Teaser Video
- Wedding Invite Video
- Corporate Shoots

If you are looking for a professional video production company then you have landed at the right place.

CUSTOMER BASE

Our extensive experience lies in delivering solutions and services that cater to the varied needs of our diverse customer base, encompassing both startups and established enterprises. Our approach ensures that we effectively support you in achieving your business goals.

STARTUPS

We offer comprehensive support to startups, including founders, aspiring entrepreneurs, and co-founders, guiding them through their branding, digital & tech journey. Our expertise lies in transforming innovative concepts into tangible realities through our problem-solving approach.

MANUFACTURERS & SMES

With extensive experience working with SMEs, we specialize in delivering 360 degree solution in all verticals. Our solutions address complex business processes and extensive datasets, ensuring optimal performance and growth.

PRODUCT COMPANIES

Partnering with product-centric companies, we aid in enhancing product features, functionality, design, and user experience to align with current market demands. Our continuous support ensures differentiation and competitiveness in the market.

AGENCIES

Through collaboration with agencies, we contribute to the development of impactful digital tools. Our white-labeled services empower agencies to deliver innovative solutions that meet the needs of end users effectively.

OUR PRODUCTS

www.intelliworkz.tech

DataNote ERP streamlines your business with inventory management, sales tracking, customer engagement, and trend analysis—all in one powerful platform. Simplify operations, save time, and increase profitability while improving customer satisfaction. With real-time insights and actionable data, stay ahead of the competition effortlessly.

Formzezy simplifies the process of creating forms, analyzing data, integrating software, managing spreadsheets, and many other business solutions without the requirement of coding. Our platform's customizable features allow businesses to centralize applications, monitor KPIs, and ensure no data goes unnoticed.

DATANOTE

DataNote is a leading & technically high-end ERP that helps an organization to integrate, streamline and scale their business at the desired heights by virtue of making their entire business operation system driven rather than human-driven. DataNote ERP can be offered in On-Premise mode, On Cloud Mode, and Software AsServiceMode. Our modern technology offers OpenLogic Framework where the enterprise doesn't need to share all the data/business logic/trade secrets/operation logic and formulas, that's not possible in the case of traditional ERP implementation.

OpenLogic ERP Framework consists of Structure Engine and Logic Engine. Here, we handle the Structure Engine part while Logic Engine is free to manage by the client. In that way, the client can execute & monitor the framework along with making it confidential from the rest of the world.
